- Social media update

Social Media Update

Continue to follow us on Instagram, Twitter, LinkedIn and Facebook.

Along with knowledge updates on common FRCS (Tr&Orth) topics, you will find information on recent developments related to training and orthopaedics in general.

Don't forget to visit our website and become involved with the Network and its activities.

Events update

The year has been like no other! COVID-19 has had a significant effect on everyone's lives; we hope you have all been staying safe during these testing times.

Prior to the lockdown, once again we held two very successful courses; the FRCS Viva course at Salford and our flagship annual ST3 Mock Interview course at Sheffield. Both events were well attended with excellent feedback tantamount to all the hard work put in by our members and colleagues who helped run these events.

A special well done to Usman Halim for being the best candidate in this year's ST3 Interview course. Well done and the best of luck!

Charity update

This year we have helped a number of charities during these difficult times. We hope our contributions have led to improving numerous lives in the UK and around the world.

NHS CHARITIES TOGETHER

What's next?

In the coming months we are looking to setup online webinars and events for the FRCS (Tr&Orth) exam. Keep a close eye on our website and social media channels for further information.

Our website is constantly being updated with new information and resources. Currently, the team (led by Mobeen Qureshi) are developing a question bank for the ST3 courses. Please visit www.orthopaedicnetwork.org.uk for further information.
